

BAUM PRECISION MACHINING UPGRADED AS9100 TO REV D

4/3/2018 - Baum Precision Machining Inc. is extremely proud to announce it has upgraded its AS9100 Certification to Revision D.

AS9100D is an aerospace standard based on the ISO 9001 quality system requirements. The standard takes the requirements of ISO 9001 and supplements them with additional quality system requirements, which are established by the aerospace industry in order to satisfy DOD, NASA and FAA quality requirements. The intent of the standard is to establish a single quality management system for use within the aerospace industry.

This certification reflects Baum Precision Machining Inc. commitment to meeting and exceeding the stringent industry requirements for Aerospace and Defense manufacturing.

Aaron Baum, the President of Baum Precision Machining "The AS9100D certification is the standard to which aerospace suppliers are measured and reflects the continuous improvement efforts and commitments made by our employees to deliver the highest quality products to our customers. The upgrade of AS9100D Certification highlights the company's focus on supporting the stringent requirements of the aerospace, aviation, and defense industries."

About us:

Baum Precision Machining, Inc. has been supporting leading manufacturers with Precision CNC services since 1979. Our 18,000 Sq. ft. facility is strategically located in Pipersville, PA adjacent to major road, rail, and air transportation routes for ready access to raw materials and fast delivery of finished goods.

We have developed extensive expertise in milling complex parts for the Aerospace, Industrial, and Medical Device industries. Our high quality and manufacturing processes have been refined over the years and have given us a reputation as the go-to shop for making the hard stuff. Baum's cutting edge multi-axis CNC equipment has the capability of handling small to medium sized parts (table sizes up to 30" x 60"), holding close tolerances (up to +/-.0001), and producing small to large volume.

Baum management wishes to thank all our hard working staff for their continued commitment to maintaining the highest quality standards.
